Bopp Thermal Laminating Machine
Gebrauchtmaschine | Artikel-Nr. 6569

Technische Daten:

Maschine:	Bopp Thermal Laminating Machine
Hersteller:	Technomac / Italy
Typ:	ACF/TM
Größe:	760 × 1,020 mm
Kapazität:	None
Jahr:	None

Beschreibung:

TECHNOMAC ACF/TM 760 – BOPP Thermal Laminating Machine

The TECHNOMAC ACF/TM 760 is a high-quality thermal laminating machine designed for single-sided lamination of printed sheets using BOPP thermal film. The machine is suitable for paper and board products up to 760 mm working width and is widely used in the commercial printing and packaging industries.

Main Features

- Maximum working width: **760 mm**
- Sheet size up to approximately **760 × 1,020 mm**
- Suitable for paper weights from **100 to 400 g/m²**
- Production speed up to **40 m/min**
- Automatic non-stop feeder
- Oil-heated laminating roller
- Automatic sheet separator and delivery
- Adjustable pressure and temperature controls
- Designed for glossy and matte BOPP thermal films

The machine is suitable for the production of laminated folding cartons, book covers, commercial print products, luxury packaging, brochures, calendars, and other high-quality printed materials.
