

# Wickelkartonmaschine

## Artikel-Nr. 6643

### Technische Daten:

|             |                                                |
|-------------|------------------------------------------------|
| Maschine:   | Wickelkartonmaschine                           |
| Hersteller: | European                                       |
| Typ:        | Used Multi-layer Paperboard Winding<br>Machine |
| Größe:      | None                                           |
| Kapazität:  | 80 m/min                                       |
| Jahr:       | None                                           |

---

**Beschreibung:**

---

**Used Multi-layer Paperboard Winding Machine**

Speed max: ca 85m/min

Board thickness: 1 – 5 mm

Grammage range: Grammage max ca 3500 GSM

Consisting of

Approach flow system

Stainless steel chest

Refiner

Deflaker

Vibrating screen 0,7 m<sup>2</sup>

Pressure screen

**Board machine**

Wet section recently rebuilt in stainless steel version

Circular distributor

2 cylinder mould

Winding cylinder

Dryer channel – Steam driven with heat exchanger

**Sheet cutter**
