Kneter / Disperger von Maule

Gebrauchtmaschine | Artikel-Nr. 5039

Technische Daten:

Maschine:	Kneter / Disperger von Maule
Hersteller:	Maule
Typ:	Kneater
Größe:	None
Kapazität:	60 tds / day
Jahr:	None

Beschreibung:

Second hand mechanical Kneater / disperser with the possibility of pulp heating

Design three-stage system:

1. Screw conveyor - starting concentration 3.5 %, final concentration 8%, design: two parallel screw

conveyors 11 [kW] each,

2. Screw compactor - starting concentration 8 %, final concentration 25 - 30%, motor 55 [kW] with

mechanical gearbox.

3. Screw disperser - motor 110 [kW] with mechanical gearbox.

Equipped with manual valves, stable level box.
