

Paper converting / finishing line

Gebrauchtmachine | Artikel-Nr. 5527

Technische Daten:

Maschine:	Paper converting / finishing line
Hersteller:	European manufacturers
Typ:	None
Größe:	None
Kapazität:	None
Jahr:	None

Beschreibung:

Cerutti Laminator/Coater

- Wet (waterbased) or dry Lamination (waterbased or solvent based)
- Lens/holographic optima register system – Weko re-wetting system
- Metpol/aluminium foil/transmet
- Two gravure heads – 1st head for the adhesive & 2nd head usually applies the lacquer if required (waterbased or solvent based)
- Two rewinds – one for laminate and one for stripped film on transmet
- 1240mm max substrate – board/paper
- 1.5m max OD
- 1.0m max OD topstrate – film/foil etc

Can use 76mm core on board unwind also (only laminator that can)

Drying Systems – Hot Oil Drying on both Cerutti Laminator/Coaters

Kroenert Laminator

- Wet Lamination only (waterbased)
- Metpol/foil – not currently transmet
- Workhorse for drinks market
- Roller coating (rubber & steel) for adhesive and gravure for lacquer
- Clear lacquers only (not golds)
- One rewind though has an additional in-house rewind added also
- 1229mm max substrate – board/paper
- 1800mm max OD

1.0m max OD topstrate – film/foil etc

SLITTERS

WICKELTECHNIK – Jumbo Slitter

- Max slit width – 1250mm
- Min slit width – 300mm
- Board Thickness Min 60 microns Max 800 microns
- Max reel OD – 1800mm
- Max reel OD – 1800mm
- Slit width min. 500mm
- Slit width max. 1250mm
- Lens/Holographic registration monitoring capability for reels
