## Beschreibung:

---

Manufacturer: Ahlbrandt

Conveyor with: 0,8 m

Condition: very good

Heated by: Gas

Max temp: 130 °C

Consisting of: 4 drying modules from each 4m long.

2 of them are connected by a single conveyor belt and the 2 others modules have their own conveyor belt.

Each unit has its own 200 kW gas heater (could be easily rebuild to other heating systems), 15 kW circulation fan and 7.5 kW extraction fan.

The conveyor belt has a width of 0.8 m and is driven by an automatic belt alignment system.
