

Laborpapiermaschine mit dazugehörigen Installationen

Artikel-Nr. 6129

Technische Daten:

Maschine:	Laborpapiermaschine mit dazugehörigen Installationen
Hersteller:	German manufacturer
Typ:	Fourdriner
Größe:	310 mm
Kapazität:	None
Jahr:	None

Beschreibung:

Speed: 2.35 m/min

Grammage range: 45-180 g/m

Dimensions: 310 x 182 x 130 cm

Fourdrinier PM

2 Nip press section

4 drying groups with a total of 14 electrically heated drying cylinders

Process guide system. Control of:

- Machine speed (10 drive groups)
- Pulp and water quantities (hc pulp, felt water, headbox)
- Additive dosing
- Drying cylinder temperatures

Included components**2 x 400 l stock tanks:**

2 x mobile stock tanks 400 l incl. agitator+ Hand gear – stainless steel with associated FU control cabinet

Dimensions tank: 130*180*110

one 400 l vat, stainless steel without gear and without cover

Electrical supply:

FU cabinet: 63*76*35,5

Security: 31*30*15

Mixing container

1 x mixing container – up to 60 l – stainless steel incl. agitator PLS controlled

Dimensions W*H*D: 70*160*70

Screen water tank

1 x screen water tank ~120 l – stainless steel incl. agitator controlled by PLS
